

Adult Education Offers Classes

In Personal Improvement

"Color preference can be an interesting clue to our personalities," states Miss Mary Deseree, who will teach two Torrance Adult Classes in "Personal Improvement for Women."

The correct use of color in dress and home and color psychology will be a feature of the new spring classes, which will meet each Monday evening, beginning Jan. 30, at South High School from 7 to 10 p.m. room R-3. Morning classes have also been scheduled for each Thursday from 9:30 a.m. until 12:30 at the Torrance YWCA, 2326 Carson St.

Miss Deseree is also teaching a class in "Leadership Training," "Effective Speaking" and "Human Relations" for both men and women, each Wednesday evening from 7 to 10 p.m. in Room R-2 at South High School.

MARY DESEREE
Class Instructor

"The skills of a good personality and appearance can be acquired by anyone who is willing to learn these principles and put them into practice each day of his or her life" stated this popular instructor.

In the Monday evening and Thursday morning classes, Miss Deseree says that the student, while learning principles of color harmony, will also gain sparkling interpretations of Spring fashion with pointers to enhance and dramatize features and the wardrobe. Special stress will be placed on skills in coordinating accessories, dressing to "type," makeup and foifures.

Each week students will also learn the advantages of good posture and exercises for a trim figure, as well as grace, poise and relaxation.

Further information regarding these classes for men and women may be obtained by calling Adult Evening Class offices after 5 p.m. Students may enroll at the time class meets with the instructor. There is a small fee per semester.

"These money-saving tips from the Gas Company can help you keep heating costs down."

Turn your furnace control down at night • Draw draperies, at night, over windows and sliding glass doors, to reduce loss of heat through the glass • When you're not using the fireplace, close the flue • Fix hot water faucets so they won't leak or drip (you'll save on both water and gas).

Remember heating with gas costs you only about 1/3 as much as any other modern heating method—even though you're using 4 to 7 times as much gas as on a typical summer day!
