

Kanine Korner

By Francis X. Lohmann

Read on as I unfold a heartwarming legacy, the last Will and Testament of a precious Cocker Spaniel to her beloved master. Here it is in verbatim: "My material possessions are few and I leave them all to you, an old collar, a chipped water dish, and the front half of a well-chewed large green toy mouse. Mostly, I leave you memories and they are many. I leave you the memory of soft brown slightly diamond-shaped eyes, and a mahogany-colored plush nose and my happy bark.

I leave you my bed on top of the spare bed next to yours. The bed with the clean white sheet except, perhaps, for a few paw marks and a few wrinkles. I leave you the memory of my first reprimand and my forgiveness. I bequeath to you the memories of my climbing with my front paws and then my hind legs on your lap as you watched television.

I leave you the 10 o'clock cookie hour when I gave you no peace from barking until I at last gained that treat of treats, a cookie.

I leave you my devotion, my sympathy, when things go wrong, my frustration when I hid under the kitchen table when you scolded me.

I never attended church and I never heard a sermon, yet, without having spoken a single word in all my life, I leave you with lessons in patience, tolerance and understanding. Your life has been richer, fuller, more complete,

because I have lived."

PUPPY STAINS are not only a problem to carpeted floors but to hardwood floors as well.

Light sanding will usually remove any surface stains from wood floors, and this can be done by hand, using a fine grade of sandpaper. If the original finish of the wood is varnish or lacquer, apply a new coat to the treated area only, using short strokes.

The dark stains, which go so deep into the wood grain, can only be removed by bleaching. Regular bleach is not strong enough. The safest and most effective agent for this work is aolic acid, which can be purchased at a local chemical supplier. One note of caution, however, oxalic acid is a poison, and rubber gloves should be worn when mixing and applying. Keep pets and children a safe distance from the pot where you are working. Once the stain has been removed, let it dry overnight before refinishing the wood surface for best results.

BOWSER BROWNS — Kennel Club of Beverly Hills bows into the Sports Arena, Saturday and Sunday, for the big all-breed dog show and obedience trial. . . . City dogs average a life span that is two to three years longer than their country cousins, despite the dangers of automobile traffic. . . . Lou Russo and Jerry Dwyer who operate

the fast-growing Russo Italian Greyhound Kennels have moved their canine activities from Hollywood to Torrance. . . . This reporter joins the membership of the Dog Writers Association of America in welcoming Paul Sher to the fold. Sher headlines a dog column for the Plainfield, N.J. Courier News. . . . Recently, a Collie in Mobile, Ala., saved the lives of two small children by pushing them away from a five-foot rattlesnake and holding them there until help arrived. . . . The couplet "I am his Highness' dog at Kew; Pray tell me Sir, whose dog are you?" was inscribed on the collar of a dog given by Alexander Pope to Frederick, Prince of Wales.

THE HOT DOG is one in a million, it feeds the hand that bites it! A dog has 42 teeth, 20 in the upper jaw and 22 in the lower. A man has only 32 teeth, 16 in each jaw. No wonder its news when a man bites a dog. . . . He has earned this monicker because he is a home loving fellow and if not out and about his business can usually be found stretched out like a big shaggy rug before the entrance to his master's home.

Angels. Dog grooming and bathing at its best! Give Al a jingle at 751-0895 for free pickup and delivery.

BREED OF THE WEEK—Great Pyrenees. . . . In his home territory, the Great Pyrenees who hails from the Pyrenees district of Southern France, is given the affectionate nickname "Mat Dog." He has earned this monicker because he is a home loving fellow and if not out and about his business can usually be found stretched out like a big shaggy rug before the entrance to his master's home.

The Pyrenees is a breed of great antiquity. He is descended from enormous Mastiff-type fighting dogs, which came to Europe from Central Asia in the company of invading and migrating hordes from the East, probably the same dogs which were the forefathers of the Kuyasz.

There is nothing snobbish about a Great Pyrenees. He lends his great strength and stamina to any task he is capable of performing; pulling a cart, toiling as a pack animal or acting as a devoted protector and nursemaid to children.

The armed forces during World War II utilized the Pyrenees in snowy areas for carrying parts of dismantled machine guns, toting ammunition and hauling sleds and toboggans packed with medical supplies.

Great sweetness of disposition, abundant intelligence and a natural affinity for the comforting of human beings are intrinsic to the nature of the Pyrenees. The magnificent appearance of the Pyrenees is an ornament to his owner's home. The Great Pyrenees tips the scales at about 115 pounds and in height 30 inches.

CHANGES TOLD . . . Ashley Manning (left), president of Manning's Big Red Piano Shop, and Clyde Wallichs, president of Wallichs Music City, announce acquisition of Manning's by Wallichs through establishment of a new subsidiary, Music City Pianos and Organs. The transfer became effective June 1. Manning announced his retirement plans at the same time.

Garden Checklist

1. Set out varieties of Cushion Chrysanthemums for bloom through the summer months.
2. Plant herbs in pots around your barbecue area and use them to improve the flavors (and odors) of outdoor cooking.
3. Plant gardenias in partial sun and give them plenty of water and food. Work peat moss or bark into the soil before planting.
4. Camellias set buds during summer for next year's bloom. Water them frequently, preferably in the morning by overhead sprinkling, to insure good set.
5. If you need quick color in a sunny bed, plant dwarf marigold. Dwarf dahlias are also a good bet.

Now Possible To Shrink Painful Hemorrhoids

And Promptly Stop The Itching, Relieve Pain In Most Cases.

New York, N. Y. (Special): A scientific research institute has discovered a medication which has the ability in most cases to actually shrink hemorrhoids. In case after case, the sufferer first notices prompt relief from the itching, burning and pain. Then this medication starts right in to gently reduce the swelling of inflamed, irritated hemorrhoids.

Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so.

And it was all accomplished without narcotics or stinging astringents of any kind. The secret is *Preparation H*—an exclusive formula for the treatment of hemorrhoids. There is no other formula like it! In addition to actually shrinking piles and relieving the painful distress—*Preparation H* lubricates, makes bowel movements less painful and soothes the irritated tissues. It also helps prevent further infection. *Preparation H* comes in ointment or suppository form. No prescription is needed.
